INTRODUCTION

1. INTRODUCTION

This manual describes the operation procedures and characteristics of Oxford Lasers' CU10-A and CU15-A Metal Vapour Laser systems.

In the manual Chapter 3 is a summary listing of the basic operating instructions for experienced users only. Chapter 4 describes these procedures more fully, and Chapter 7 provides a description of the physical principles of metal vapour laser operation which will help the user understand the system.

CAUTION:

IT IS IMPORTANT TO READ THE MANUAL BEFORE ATTEMPTING TO OPERATE THE LASER. PARTICULAR ATTENTION SHOULD BE PAID TO CHAPTER 2, "SAFETY".
